

## StrataNet Commercial DMR Pricing Guide

Below are our standard costs for commercial grade internet. These can be used for either a primary internet connection, or as part of a DMR (disaster management & recovery) solution.

Speed (Down/Up)	Monthly Cost	Install Cost
5/5 Mb/s	\$200	\$1000
10/5 Mb/s	\$400	\$1000
10/10 Mb/s	\$500	\$1000
15/10 Mb/s*	\$700	\$1,500
15/15 Mb/s*	\$800	\$1,500
20/15 Mb/s*	\$900	\$1,500
20/20 Mb/s*	\$1,100	\$2,000

\*Anything over 10/10 needs to be negotiated on a case by case basis.

*We focus on flexibility and aim to deliver what the customer requires*

All commercial plans come with:

- 4 hour RTO (return to order)
- Fully managed account
- Non-aggregated bandwidth

All prices are exclusive of GST. All install prices are an estimate for a regular job. Any extra lengthy cable runs or complicated installs will be on a POA basis. Any additional tools or equipment that needs to be hired for installation will be done so at the customer's expense. All commercial plans incur a 12 month contract; however we are flexible for shorter term customers.
